AUDIO - VISUAL

# Did you know...

Niavac is Northern Ireland's leading provider of professional commercial Audio Visual (AV) solutions.

We are a Belfast based province wide Audio Visual (AV) systems integration specialist that has been in business for over 60 years. Over this time the company has grown steadily, expanding its reach across the Corporate, Healthcare and Education sectors, amongst others.

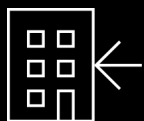

We are a team who pride ourselves on our vast understanding of audio visual equipment and the industry, with a team of extremely skilled sales and technical engineers who provide the best design capability, together with confidence that our 'complete package' delivers design and installation of any AV solution whether it be PA/audio systems, digital signage, interactive technology, video conferencing or live event technical services.

Niavac has won various awards over the years, the most recent being named the winner of the "Covid Era Innovation Company of The Year" award at the 2021 AIB Business Eye Awards. The award spotlights innovation, adaptation and a change in business where Niavac launched its Virtual Studio in 2020 to enable virtual or hybrid events to be broadcast globally. This technology can also be transported and installed in different locations, offering unparalleled flexibility for digital events.

In the future, Niavac's focus will be centred on growing the business across Design and Build plus Event Services whilst at the same time continuing to embrace new technology as it advances at a rapid pace.

## What our clients say...

“

### **Forget The Rest - Use The Best!**

In my past 14 years working in I.T. I've dealt with a few local A.V. companies over the years in N.Ireland and always find Niavac to be the best, most helpful and professional out of all of them.

”

A massive **THANK YOU** to all our clients
